

NAKED APE

The inspiration for this collection is the travelling man. For this, designer **Shaldon Kopman** created unlined, loose-fitting garments that were both economically and ecologically friendly. They play with reversible design, opting for a minimalist approach to shirts, summer coats and waistcoats which allow for versatility and low maintenance. It's the perfect 'pack-and-go' wardrobe. In classic Naked Ape style, pieces are made with natural fabrics such as bamboo, cotton and hemp.
